Bud's Corner

I want to be the first to welcome our amazing racers, fans, and supporters to the beginning of yet another decade of racing at Glen Helen Raceway (GHR)! It's hard to believe that 2020 marks the 35th year of racing at GHR, and with the great support of the County of San Bernardino, I am pleased to report that racing at Southern California's most iconic track isn't going anywhere. We have secured the rights to ensure that racing will continue at GHR through the year 2037!

2019 was packed with some epic events at Glen Helen Raceway (GHR). April was greeted with the "old school" sound of 2-strokes climbing Mount St. Helens at the Wiseco 2-Stroke World Championships presented by Fasthouse. In November, the 35th annual Dubya World Vet MX Championships race, started by our beloved Tom White, took place and had a record turnout of more than 1600 entries from 21 Countries and 35 US States. In addition, Lucas Oil Regional and National Short-Course events took place throughout the year on the short-course track. Of course, when our facility wasn't hosting one of these larger premiere events, you could find any number of more local races or events taking place on almost every weekend. Finally, as is tradition, the Edison Dye Lifetime Achievement Award was presented to Mitch Payton of Pro Circuit. Be sure to check out his dedicated plaque located on the Walk of Fame in front of the GHR Museum.

What does Glen Helen Raceway (GHR) have in store for 2020? A lot! In addition to our traditional signature events (World Vets, 2-Stroke Championships, Lucas Oil Off-Road, etc.), we will be hosting the always popular 3 Bros 6, 10, and 24 Hour Endurance Series and introducing the new GBC Motorsport UTV/Quad Stadium Short Course racing series. Also, we are pleased to announce the return of the prestigious Yamaha California State MX Championships in October 2020!

Of course, Glen Helen Raceway would not exist without the tireless dedication of all our management staff and track personnel. With their continued efforts, we look forward to a long tradition of bringing not only the best racing conditions to each event, but also the best fan experience as well. As our tagline reads, we want our fans to "Feel the Speed".

Bud's Corner

Again, let me be the first to say "Thanks" to all of those who have supported Glen Helen Raceway (GHR) over the past 3 decades by racing, spectating, sponsoring, or working at this world-class motorsport's complex. I am truly excited for the future of GHR and the decades to come at the "Baddest Track in All the Land".
Yours in racing,

Bud

Bud Feldkamp

Experience MX Racing At its Best with REM!

For the 22nd consecutive year of its 32-year history, REM returns to "The Glen." REM provides racers with a safe, challenging track while maintaining relaxed, fun events. Most events take place on the back track (known as the REM track), and often that track is modified to make for a variety of terrain from week to week. REM is known for long motos and short days with professionally run events. REM is also the proving grounds for many of the industry riders and machines. REM is famous for the participation of current pro riders as well as legends of the sport--you never know who may be in the gate next to you on the start line! Prior to the current Glen Helen REM days, REM was an institution at the legendary Carlsbad Raceway. For ten years, 1988 to 1998, REM conceived and promoted the famous "Commotion by the Ocean" event, a gathering of motoheads to participate in a full weekend of special moto and moto-related events. The big REM news for 2020 is the return of Commotion (now titled "Commotion 2.0". Make your plans for July 3-5 to be at The Glen for return of REM's iconic event, Commotion 2.0!

PRAIRIE DOG GRAND PRIX

FEB 28 - MARCH 3

"The Largest Big Six Event"

If there is one thing all riders agree about the Prairie Dog event, it is the event's variety. Every year the Malcolm Smith Motorsports sponsored event creates a challenging course that includes every type of terrain imaginable. The course runs more than 10 miles through the surrounding sand washes, over the ridgeline to the Hyundai Pavillion and through the now infamous "Bud's Creek."

Don't forget to put this round of the "Big 6" series on your calendar NOW! You can bet this D37 Big 6 Series race will be another great event you won't want to miss!

LAST DOG STANDING

JUNE 6-7

The Prairie Dogs MC is proud to continue this world-class event! Come see if you have what it takes to compete in one of the most challenging off-road races in the nation! If you want to be the best, come and race the best! Last Dog Standing pushes man and machine to their limits. Who will be crowned the 2020 "Last Dog Standing"?

"LAST DOG STANDING" Competition Event

Sat & Sun, June 6-7, 2020 Glen Helen Raceway – Devore, CA

Pro Purse 100% pay back up to \$3000.00 – All Other 15% Trophies

Pays Desert Points up to 125%. No Lights Required!

SRA Grand Prix Racing Southern California

Founded in 1970, SRA GP is a Southern California based grand prix style off-road motorcycle racing club managed by Rich & Cathy Suitor. Races are currently held at Glen Helen Raceway in San Bernardino. Races are Grand Prix style which means the track has a motocross section as well as some off-road terrain. Each race is 45 minutes in length. Racers vary in age from 6 to 75 years old, from beginner to pro levels. Course layouts are different for every race, yet safe and challenging for all skill levels.

2020 Race Dates:

**January 26 February 16 March 22 April 26 May 24 June 21
July 19 August 23 September 27 October 25 November 22
December 13 (Kyle Yarnell Memorial Race)**

2020 GBC UTV/Quad Stadium Short Course Series

Glen Helen Raceway is bringing back the Mickey Thompson style of racing to the awesome Lucas Truck Track! Our famous track features a wide racing layout with jumps and plenty of room to pass! Races will feature times practices which will determine qualifying positions. Qualifying race order may result in either fastest qualifier order or an inverted start (promoter option!). The race will feature a two-moto format; transponders will be used and starts will be two vehicles per row! This series is a grass-roots racing, perfect for all racers and drivers with simple rules.

2020 GBC UTV/Quad Stadium Short Course Series Schedule

All DATES are Saturday events

Why We Ride

How far we have come, how far we have climbed.. from our boots, to our bikes.
Photographed on Johnny Brown's front porch at his ranch in Carpinteria, California.
Home of the coolest Triumph Tiger Cub collection, ever!

Photographs and story by

Jon Ortner

The people we meet and the books we read are really the only thing that actually defines each five year segment of our lives. What do we really have control of? Our own attitude and our own behavior. With motorcycles, the attraction of riding knows no boundaries or social limitation. We continuously meet new, amazing people and are constantly informing ourselves of better ways and new technologies. The fact is, hundreds of millions of people global-

ly love motorcycles.. riding them, designing and working on them, restoring them and photographing them. Why?? Because they are exciting, frightening, inspiring, challenging, interesting, and compelling pieces of art. Motorcycles accelerate madly, and fly far. . . filling every radical emotion your heart can possibly handle. And, they are fun. Where else, other than on a motorcycle, do you have the sense of freedom and adventure, and are able to spend time, as much time as you wish on the very edge of what is possible with gravity and momentum? The very simple act of opening the motorcycle's throttle delivers every emotion and sensation our bodies can handle. That feeling gives all of us an immediate relationship, with each other.

Whether we find ourselves injured and unable to ride, or not quite fit and fast as we could be, or used to be.. or we are on top of the world with wins and championships, the blood of our commonality flows in the same direction. With passion and a zest for life.

Modern motocross bikes are fast, and furious and our feet take an amazing amount of abuse. Fortunately for motocross, incredible companies like Gaerne design and manufacture phenomenal foot and ankle technologies that allow us to hit and absorb corners, jumps and ruts with confidence and security.

Why We Ride

REM Motocross brings people together in the most organic way possible. Here, Richard Stuelke, Dan Alamangos, and Debbi Tamietti kindly pause for my lens.

Common threads for great friendships. Owin Wright and Randy Blevins pause in front of Owin's race inspired art.

I grew up in the country. Where solitude in the outdoors is normal. Reflecting on the past, our nation's past, often I feel like I was born two hundred years too late. . . where a man and his horse, a finely oiled rifle, with his well worn boots and saddle could make his way with a hand shake and a lot of hard work. In our modern life, we ride steel horses with massive traction. Tireless pieces of technology that delivers us to our own nirvana. I am guessing people have always had a special relationship with their stock.

On my art easel is a painting I have enjoyed creating. A scene of solitude from another time, a journey that brings us together for the shared experience, for why we ride.

Back in 1978, young Malcom McDonald read an article by Motocross Action Magazine's legendary editor Jody Weisel on building the ultimate high performance, small-bore four stroke motocross machine. With today's technologies prompted by yesteryear's inspiration, some forty years later Malcom's dream project bike is complete.

Malcom McDonald with finishing touches on his masterpiece for our photo shoot near his shop in Carpinteria, California.

This is the article that New Zealand's Malcom McDonald saved all these years and used for his remarkable inspiration.

Fast forward to January 2020 at A1, Justin Barcia's and his Factory Yamaha season kicked off with the perfect start by winning the opening round of Supercross.

Johnny Brown crashed and broke his neck racing motocross at Bay Mare Motorcycle Park, back in 1969. To this day, Johnny's life is full and vibrant. His passion for a creative life that includes the arts, collecting Triumph Tiger Cub motorcycles, photography, writing, and farming fruit trees on his ranch in Carpinteria, California! Johnny and I only met recently while I was photographing a Ford v Ferrari fund raising event for the Boys & Girls Club of Santa Barbara County. Instantly friends, which is not unusual for like minded people that are life time fans of motorcycles.

Johnny Brown collects the Triumph Tiger Cub, popular in the 1950s & 1960s. His idea is truly organic by nature. Instead of refinishing the motorcycles back to a pristine condition, he rather set them up however they came off the track, or trail. He lets the dirt and dings, the oil and dents tell the tale.
